WHO WE ARE and OUR FIRST CONSTRUCTION PROJECT

ORION GROUP INTERNATIONAL LLC is an international construction, construction management and consulting firm with offices in Poulso, Washington and Bishkek, Kyrgyzstan and Manila Philippines. ORION's work experience includes a variety construction projects for the U. S. Department of Defense in the United States, South Pacific and Diego Garcia (British Indian Ocean Territory). ORION design/build teams include US-based "Azon Architects" and together have successfully completed several design/build delivery projects for the U.S. Navy. Our Bishkek, Kyrgyzstan operations include senior project managers, quality control engineers, mechanical, civil and electrical engineers, a dedicated country manager and a wide variety of skilled workers and office support staff.

Engineering solutions are at the core of many of our diverse and award-winning projects across Central Asia and around the world. Our team includes professional engineers with almost 40 years of experience, as well as newly registered certified engineers. Orion's team of mechanical, structural and

commitment to
customer
satisfaction"*

electrical engineers play a key role in problem solving and driving innovation. Orion's engineers work side-by-side each day with other members of the integrated design and project teams through all phases of design and construction. Team members are supported by in-house expertise and mentorship, continuous training, and the best tools and technology to achieve optimum results for our clients. Our estimating team follows the Standard Estimating Practice outlined by the American Society of Professional Estimators and is a member of the American Society of Professional Estimators. We can help you plan your project financing requirements by providing a reliable reference for the successful completion of your project.

8 reasons - Why you need to choose Orion Group:

1. Construction, engineering and estimating solutions;
2. Competitive and reasonable rates;
3. Quality work executed in a safe manner;
4. Completion of project on time;
5. Our services will increase your company profit potential by enabling you to accommodate more projects;
6. Our engineering team MS Project and AutoCad proficient engineers with on site experience;
7. We offer you our dedicated, personalized and customer friendly professional services;
8. Your project savings will be the measure of our success.

OUR FACTORY and TECHNICAL CAPABILITIES:

OUR LATEST CONTRACT AWARD FOR ORION'S KYRGYZSTAN OPERATIONS

“Completion in a timely manner”

Orion Group International in June, 2009 was awarded a contract by **Washington Group International Global Inc. (“WGI”)** on **“Installation of Radiation Portal Monitors for Kyrgyz Republic”**. WGI Global Inc. is a subsidiary of **URS Corporation**. This contract known as **DICCE (Design, Integration,**

Construction, Communications and Engineering) released by the Department of Energy and National Nuclear Security Administration, on installation of the Radiation Portal Monitors, and communication equipment, rail and vehicle ports of entry (POE). Project included the installation of radiation detection systems

and all necessary supporting site developments on five (5) Border Crossing Points in Kyrgyzstan: **Kara-Balta, Ak-Tilek, Dostuk, Ak-Zhol and Chaldybar**.

As per the schedule, the project already completed, the final hand-over is planned at the end of October, 2009.

“TRUST AND QUALITY ARE OUR MAIN CONSTRUCTION”

At the Kyrgyzstan/Kazakhstan Border Crossing Point “Ak Tilek”
